

Warning: Hydraulic Conversion Kit Installation

This McLeod Racing, LLC hydraulic conversion kit includes the components necessary to update your vehicle to hydraulic throw out bearing technology. While the kit is intended to be as easy as possible, some vehicles may require minor modifications to the firewall. This is due to many factors including OE manufacturing changes during vehicle assembly therefore some modifications may be required to successfully install this kit. If you are unwilling to modify your firewall, if it is necessary, you are advised to return this kit to the dealer. Keep in mind any modifications to the firewall will not be visible once the mounting bracket is installed onto the vehicle.
